

WORLD'S

FOURTH

APRIL 1st., 2062

"French Club"

Well, Spring is here and the French Club is really busy. Preparations for a trip to France are in the making. It is not certain when the trip will take place but so far it is planned to be near the end of the year. The trip will last fourteen days.

Points of interest of the places visited will be: The Eiffel Tower, Notre Dame, the Riviera, the Arc du Carrousel, and the Arc de Triomphe.

The trip will be by plane from the National Airport. The students of both shifts will all go together. ~~Everyone~~ is looking forward to a good time, which we are sure they will have. Oo-la-la!

Buses Stop

Because of the trouble the bus drivers are having in keeping their riders under control, the buses will not be in operation the week of April 17-21. All students will provide their own transportation.

It is hoped this will help the students appreciate the buses and also support President Kennedy's Physical Fitness Program.

Surrattsville's Guest

Well, the class officers finally got busy. They are planning a very big party for all Junior High students. The date will be around April 2, 1962. There will be a door prize, many dance contests, and refreshments. As the grand finale they plan to have as guest, the popular, teenage idol, Elvis Presley!! So if you dig that rock and roll, be there! The party time is 5:30 to 9:30. Dinner will be served.

Early Departure Granted!

Starting April 1st. 1962, all ninth grade students, being the senior class of Surrattsville Junior High, are going to be released one hour early each day!

Those ninth graders on the first shift will leave school at 12:25 each day. The second shift ninth graders will be departing at 5:10 each day!

This early departure was presented to the ninth graders by our principal, Mr. Chesnut, in appreciation of outstanding achievements made by this group!!

Editorial

Shoes at School

It is the opinion of this newspaper, the Hornets' Herald, that shoes should not be worn to school. The following are our reasons for this viewpoint. Spring has sprung. The weather is much nicer and warmer. Why not let those little pinkies wiggle in the new grass and soft mud? Just think of the freedom you'd be giving your feet, the fresh air, the exercise! And with the money you save on shoes, you can buy that new lipstick, girls, or that new tie, boys---. And when the weather gets (hot weather) there won't be any worry of perspiration odor from those little darlings, your feet. Think how nice it would be to see everyone--- students, teachers and principal--- all slopping up and downstairs, to and from classes--- bare-footed!! FLIP*FLOP! FLIP*FLOP!

Hornets Speak

question:

What color and design should the flag of the United States of America be?

Answer:

Benedict Arnold - 9P

Definitely the flag should have a red background and a blue six arm cross.

(Editor's Note--- This is the British Flag)

Betsy Ross 7Z

Speaking for the women of the New World, I believe the flag should have a pink background with red roses, baby blue pansies, and yellow gladiolas.

Caroline Kennedy - 9J

A bowl of strawberry ice cream with chocolate topping and a bright red cherry placed on top. This would look luscious with a white background.

Tammy's Top Ten

Well, kids its finally here! The top ten you have been waiting for. These are the most popular records so far this year. You made these the top ten.

1. Excerpts from THE DAMNATION OF FAUST.....BERLIOZ
2. ANDANTE CANTABILE from QUARTET IN D, Op.11.....TCHAIKOVSKY
3. MOTO PERPETUO, Op. 11.....PAGANINI
3. ORPHEUS IN HADES: OVERTURE.....OFFENBACH
5. MARCHE MILITAIRE No.1 IN D.....SCHUBERT
6. LIEBESTRAUM No.3 IN A²FLAT.....LISZT
7. CAVALLERIA RUSTICANA: INTERMEZZO.....MASCAGNI
8. DIE GOTTERDAMMERUNG: SIEGFRIED'S RHINE JOURNEY.....WAGNER
9. OVERTURE DI BALLO.....SIR ARTHUR SULLIVAN
10. PETITE SUITE: EN BATEAU.....DEBUSSY

Be Prepared

The chances of war seem to be rapidly increasing. If the United States enters war with the U.S.S.R., or any country the chances are atomic weapons will be used. Taking these facts into consideration, Surrattsville Junior High will make certain preparations.

Within the week of April 1, 1962, workers will arrive to move the cafeteria to where the shop is now located. Bonnie Higgins will have all her classes there in case the school is blown up. With no competition Bonnie will have all the food to herself and maybe gain weight.

Only one other major preparation will be made. Radioactive detectors will be placed throughout the school. Taking this into consideration, please leave your watches at home. They may cause the very expensive, orange and purple machines to develop slight defects.

Surrattsville Junior High intends to BE PREPARED.

Scientific Phenomenon

On April 2, 1962 starting at 5:11 P.M. and lasting for 15 minutes a great scientific phenomenon will pass over our school. The scientists from all over the United States are trying to determine the origin of this phenomenon.

This phenomenon was first seen down in Florida. It was reported as looking like a great shining blue six-pointed star. Scientists fear that the beams from the star may be deadly.

We encourage all students to go out after school and see this phenomenon but beware of the deadly rays.

When she asked him to please take her home right away, it was after 1 A.M. He took her arm and practically dragged her in. When they were inside he shoved her down in a chair and ordered two drinks. She tried desperately to think of a way to escape, but knew he would not let her out of his sight. She finally succeeded in convincing him that she should be able to comb her hair. He saw no harm in this and let her go, but told her to be back again in ten minutes.

When she finally got inside

she looked for was a window. She found one but it was too high to reach. She thought that if she could get on a chair and push the window up, that she could jump down and get away. She grabbed a chair over to the window and climbed upon it. She pushed the window up. A cool breeze blew across her face. It felt good after being in the stuffy tavern. She put one leg out the window, and started to put the other one out so she could jump when all of a sudden something started pulling her leg, just like I'm pulling yours!!!

NOTICE...NOTICE...NOTICE...NOTICE

If you have any helpful hints or suggestions for your school newspaper, please place them in the box marked Surratts Spark in Room 10!!!! They need them more than we do!!!!!!!!!!!!

Teacher of the Month

The teacher we would like to honor for April is a very recent addition to our faculty, Professor Enos.

The professor last taught Zoology at Cape Canaveral University. He attended the University of South Africa where he majored in Zoology and Modern Mathematics.

Professor Enos is very proud of his ancestors. He informed this reporter that he is able to trace his family tree back to before the time of Adam and Eve.

When asked what he will be teaching at Surrattsville, Professor Enos said there is a great need for modern mathematics among our younger generation. Within his course of Modern Math, the professor intends to teach his own original theory of counting. His theory completely does away with our present method of counting. His system is exactly the opposite of the one now in use. For example, instead of one to ten, it will be ten to one.

All the students interested in science are urged to enlist for the Modern Math course. The course promises to be interesting and fun too, for it is reported that the professor is "more fun than a barrel full of monkeys".

The Hornets' Herald would like to wish Professor Enos and his students the best of luck.

Orchestra Started at Surrattsville

An orchestra has been started for the first time here at S.J.H.S.. This band has been practicing for the past few weeks and has been okayed for the Ninth Grade Prom. It consists of two washboards and clothespins, two whiskey jugs, two rubberbands, two pails equipped with their own hog-slopping spoons, two sweet potatoes, two fiddlers and one yodeler. They call themselves the "Bare-foot, Tennessee Thirteen".

We are proud to report that our fabulous orchestra has decided to take our editor's advice and not wear shoes to the Prom.

So girls, we advise wearing floor length ball gowns if you do not want your feet to show.

We hope everyone will come to the Prom and put their best (cleanest) foot forward.

Faculty Reduced

Our beloved faculty members are fast dying off or mysteriously disappearing.

March 32, 1962 at precisely 5:03 a shot was heard in the halls. All the teachers and students rushed out of their classrooms and found Mr. Gentry lying in the hall dead. The autopsy stated that death was caused by a spit-ball wound on MR. Gentry's left ear lobe.

The second assassination occurred during the first period, March 33, 1962. Mr. Lusby was the victim. One of the Plane Geometry students took a compass and heaved it into MR. Lusby's back.

Tom Holbrook has confessed to the murder. When asked why he did away with his teacher, Tom answered - "I simply don't like flunking".

At exactly 3:09 April 1, 1963, Miss Hartz walked out of her classroom and has not been seen nor heard from since.

This reporter would like to leave all the readers of the Hornets' Herald with one parting thought: Who will be next???

Dear Diary

B.W. no longer seems to have his eye on K.W., but has sure been looking K.S. over!!!

Laure M. why were you seen climbing out of the window at Teen Club recently? Were you going to see C.L.?

R.W. can't you take a hint? Paula has been after you for several weeks now!

Aleta why were you chasing Kirt E. down the hall after school last week? Are you that crazy about him?

E.K. who were the girls we saw you with behind the stairs April 1? Can't imagine what they were doing!!!

Dick T. (on bus 247) really has a crush on P.S.!!!

Tommy Wells is going steady with the best looking blue Corvette in Clinton!

Well!, John Dorsey, you've finally wised-up!! You now know that Sandy still likes you!!!

FLASH--- Surratts Spark finally caught on fire!!!!

Welcome to our new school mates, Sam Snodgrass and Gertrude Klingelhofer! They certainly are a great subtraction!!!

Who drives the Purple sports car that is now being seen parked over at Lane's store, each evening at 8:10!

B.J.M. is it true you have it "real bad" for Dennis C.?? Wonder what he'd think?

Carlyn do you really want R.C. to give up his ring?? All your friends think so after catching you with him "that" night!!

Everyone knows you're crazy about P.H., Tammy, is that why you decided to ~~###~~ get his autograph??

Dale, you seemed to be getting tired of Bill. Is that why you decided to drop him?

C.K. you must have a motto like "while the cat's away the mouse shall play"! You sure are doing great with Dawn!!!

G.B., looks like your secret couldn't be kept, everyone knows your going steady with Judy Gordon.

Bonnie Smith has a on Steve Richardson! Wise up S.R.!!!

Good-Bye Twist

The Twist has been banned at all public dances in Price George's County. It has been decided by the Board of Health that the Twist is bad for the bone joints, especially in the leg. The movements similar to that of putting out a cigarette with your foot has proved to cause "water-on-the-knee". The actions of "round and around, up and down" have proven fatal to some who have ended up with sprained and pulled ligaments, knees, and sacroiliacs which were thrown out of place. Those who have suffered from the Twist have started a nationwide "Twist Unanamous". This Club has many thousands of members coast to coast who are settling down with the "Tango", "Cha-Cha", "Fox Trot", "Waltz", and also the plain old "Rock and Roll"

The county Board has said that anyone seen doing the Twist at any public dance will be thrown out. The reason for these drastic measures is said to be because "If somesee othe doing the Twist it will encourage them to do it, and the Twist must stop!!

FLASH!: School Being Sold

It has just been reported by our reporters that Surratts Junior High was put up for sale April 1st.--. Only the future and time will tell us more about this "scoop".

Can you Imagine?

Theresa Pilkerton without a boy friend?
Judy Register without a big purse?
Reggie Masano 6 feet tall?
Walter Madison without a water gun?
Tom Holebrook falling geometry?
Greg Delia without his arm around a girl in the hall?
Danny Hanna without blue tennis shoes on?
Jackie Goss not being happy?
Jody T. not eating 3 fudgecycles for lunch?
Plain old Ernest Reese!!!//???
The Surratts Sparks with Mr. Mudd's help?
Penny Lash not dancing!??
Carol Mitchell without her leg in a cast?
Brad Barsell being able to sit in his chair for one day without falling?!

Surrattsville without hoods!!
Tammy not getting lost when she goes to the "Big City"!!

Teachers Publish Song

Miss Hatchell, Miss Johnson, and Mrs Williams, of our faculty, have done it again. They have created another top notch song, guaranteed to rise to Number One.

The title of the latest hit is "They're bricking Up the Old Log Cabin Tonight Twist". It's a rather sad ballad, in more ways than one, and has a beat somewhat similiar to the Death March.

Surratts Sports

Many of our athletes are going into the professional field.

Riley Smith was elected captain of the Tiddly Winks Team.

Danny Bonesteel is going to continue-----

play tackle for the New York Giants. Roger Maris and Mickey Mantle are joining out baseball team.

For Physical Fitness Jay Bean and Jim Howison will walk to England.

Mike Miller will soon become a jockey at Bowie.

The Rise of Surrattsville

Flash!! Surrattsville Junior High School is rising upward in the world. Due to the sudden change in the Earth's structure, the ground on which our beloved school is built will rise 8 inches every year. It has been rising at a rate of $\frac{1}{2}$ inch per year since 1949. At the present rate, the school will be out of sight by April 1, 2062.

The Board of Education has decided to move the beloved building we all know so well to a new site. Many improvements will be made after the school is moved. The Gym will have an indoor swimming pool under a roll-away floor. The blackboards, which are now either black or green, will be changed to hot-pink. This will add a cheerful and very colorful atmosphere to our school.

Yes, Surrattsville is going up in the world in more ways than one!!!

There was a crooked man who I think walked a crooked mile, but didn't have a stick and he didn't, didn't, have a smile.

Have you ever ran up the walk at your house. I have.

Do you know whats in a Ping.. ...Pong Ball?
AIR you dummy and it goes round and round and round and round and round and round and round and up and around again.
